Unity CMS Replacement Project Update

After undertaking a comprehensive procurement process driven by the LGA Procurement team, we have a recommendation report for the preferred supplier of the new content management system to the sector.

The preferred supplier for the replacement of the Unity CMS has demonstrated experience in delivering multi-tenanted website solutions across Federal, State and local government. Their deep understanding of the complexity of such projects makes their offering a world class solution for councils in South Australia.

This offering will provide a flexible, technically superior and sustainable platform for many years to come. The local government sector will benefit from leveraging a solution that is used by a large range of clients delivering a flexible and evolving platform to member councils.

Pending endorsement at the Executive Committee meeting on 18 October we hope to be in a position to announce the preferred supplier on Friday morning of the AGM.

We look forward to sharing more information with you on the product, implementation and roll out in the coming weeks.
