To Infinity and Beyond

Friday 18 October 2019

Stamford Plaza – 150 North Terrace, Adelaide

8:40 REGISTRATIONS

9:00 Buffet Breakfast

9:50 Public Speaking – How to Present with Presence and the “Formula” for Nailing a Presentation

Presenter: Lisa McAskill

Description: Engaging an audience is about your non-verbal cues as much as it is about the content of your speech so in this interactive session we will look at how you can “set your body and brain up” to present with presence and confidence. The session will provide an experiential and interactive learning exercise with participation from everyone in the room to boost confidence for public speaking/presenting. And equip the participants with key tips for putting a compelling presentation together including how to deliver an opening that gets your audience “on-side” within the first couple of minutes.

Outcome/Session Goal: Participants will feel more empowered to accept opportunities to put a presentation together and to present it with confidence. A Blueprint For An Engaging Presentation Structure will be supplied as takeaway notes for future reference.

10:50 Smart Cities – the Conversational Gaps

Presenter: Zoe Eather, My Smart Community

Description: Earlier this year, Zoe completed a prestigious Churchill Fellowship researching Smart Mobility and Communities around the world. Zoe’s speech will take you through the global issues that we are all facing in mobility, what we aren’t talking about enough and a framework of how to get to this “smart” future we are all hoping for. Zoe will share global insights from her travels and how her lens as a woman travelling alone was a key part of her research and an integral part of the future of mobility and our Smart Communities. As well as how mobility is more than just transportation and includes both physical and digital connections particularly in our regional areas. Zoe will leave you with a different view on what Smart Mobility is and what is needed to support the outcomes we need.

11:20 Annual General Meeting

11:40 LGITSA Initiatives Update

12:00 LUNCH

12:50 ePlanning Showcase

Presenter: Kimberley Smyth, ePlanning Stream Lead, Department of Planning, Transport and Infrastructure

Description: This session will provide a demonstration of parts of the ePlanning solution developed to date, with the aim of providing early visibility.

Outcome/Session Goal: Participants will gain an understanding of the ePlanning solution, what it looks like and how it will work.

1:50 CONCURRENT SESSION

Session 1 – Voice Assistants as a New Customer Service Channel?

Facilitators: *David Carroll*, Product Manager Technology Platforms / CTO, City of Adelaide

Description: The CoA partners with Carnegie Melon University. Over the past 6 months student projects have produced some proof of concept Voice Assistants for use with Smart Speakers (Google, Alexa) or your mobile device (Think “Hey Google” etc.). These projects were completed in a short space of time with surprising results. This session will provide you an overview of the technology construct for the DialogFlow platform and future directions to possibly inspire you to do your own at home this weekend.

Outcome/Session Goal:

- Overview of Voice Assistants with the Enterprise Architecture Framework.
- Understanding of Components of creating a Voice Assistant (Google Platform).
- Future developments around Voice Assistants within the Customer Service framework.

Session 1 – ePlanning Change Impact Workshop

Facilitators: *Kellie Furey*, Change Stream Lead, Planning Reform Implementation Program, Department of Planning, Transport and Infrastructure

Description: This workshop will aim to commence identification of the potential impact of the ePlanning solution on Council processes, people, and systems.

Outcome/Session Goal: Participants will come away with a list of potential impacts that the ePlanning solution may have on their council’s processes, people and systems.

2:50 AFTERNOON TEA

3:10 CONCURRENT SESSION

Session 2 – How to Spot and Plan for an AI Project

Facilitator: *Dr John Flackett*, Koolth Technical Director, Head of Ailab

Description: In this session Dr. John Flackett will present a set of scenarios and projects to workshop and identify whether opportunities exist to apply AI in Local Government. Session participants will achieve an understanding of how to identify a project suitable to AI, pointers on key considerations and steps to design an AI strategy.

Outcome/Session Goal:

- Understanding of how to identify a project suitable to AI.
- Checklist of key considerations to design an AI strategy.

Session 2 – The Future of Mobility and Our Smart Communities

Facilitator: *Zoe Eather*, My Smart Community

Description: Zoe’s workshop will take you through examples and learnings from the 10 different countries she visited while on her Winston Churchill Fellowship, as well as how mobility is more than just transportation and includes both physical and digital connection particularly in our regional areas. In this workshop we will dive into the current trends and discuss our priorities for our communities moving forward.

Outcome/Session Goal:

- Applying Zoe’s ‘Way to Go’ Framework to the local context
- Understanding priorities for regional Smart Communities

4:10 CONCURRENT SESSION

Session 3 – Introduction into Power BI: Build a Capital Works Dashboard in an hour

Facilitator: *Warren Dean*, Founder, DataTale

Description: See how easy it is to leverage your data in Power BI. This introductory session will cover Power BI basics, from importing, transforming and visualising data. We will build a report from scratch which you can take back to your council and replace with your own capital works data. Note: attendees will need to bring their own laptop with Power BI Desktop installed.

Outcome/Session Goal:

- Create a Power BI report from scratch.
- No previous experience required.
- Use Power BI Desktop to explore and create an interactive report.
- See an end-to-end experience on how powerful and simple it is to explore, model and visualise data.

Session 3 – Records – Collaborative Build a Classification Scheme

Facilitator: *Danna Slessor-Cobb*, Knowledge Management Officer, The Barossa Council

Description: This workshop will discuss the process the Barossa Council has gone through to create a new Business Classification Scheme with a more user centric focus and how it can be a tool to engage staff in the records management process and improve organisation wide business process.

Outcome/Session Goal:

- See an end-to-end experience.
- Walk away with a structure that you can apply to your council.

To Infinity and Beyond – Friday 18 October 2019
